All-Season Cover

Design Features

1. High-Performance Fabric
Constructed from 600D Oxford fabric, known for its strength and durability, ensuring long-lasting use.

Breathable
The PTFE breathable membrane allows moisture to escape, preventing condensation while maintaining the cover's structural integrity.

Quick-Dry
Incorporates 75D knitting fabric for quick-dry performance, so your cover stays ready and effective, adapting seamlessly to varying weather conditions.

Waterproof and Weather-Resistant
Protect your fire feature with a fully waterproof cover, designed to keep it dry and in top condition regardless of the weather.

UV and Fade-Resistant
Our covers are treated with a UV-resistant coating to safeguard against the sun's harsh rays, ensuring your fireplace continues to look as good as new.

2. Prevents Water Pooling
Innovative PVC cones support the cover to prevent water pooling, keeping it secure and functional during heavy rain.

Glass Fire Screen Compatible
Thoughtfully designed to accommodate models with a Glass Fire Screen, offering versatility without compromising on fit or protecting.

3. Stays Secure
A practical elastic cord at the bottom ensures the cover remains secure and in place, even in strong winds.

Built for Tough Conditions
These covers are made to handle extreme weather—from hot summers to cold winters—ensuring year-round protection.

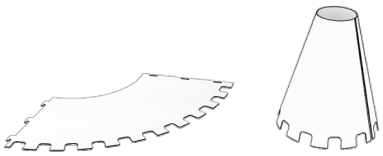
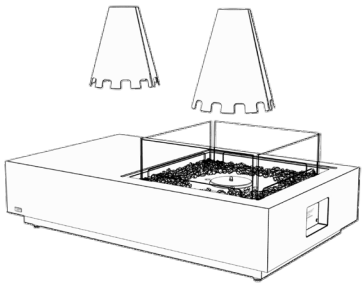
Wharf 65	MAD.5.A.AS.LT65	2 Cones

Application	Indoor & Outdoor
Colour	Black
Material	UV Coated Oxford Fabric

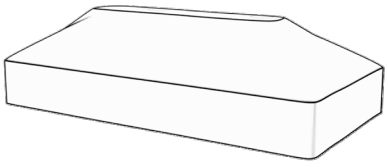
Assembly



Step 1 - Build the cones by rolling and inserting the tabs into premade slots.



Step 2 - Some models use two different cone heights. Place the taller cone inside the burner/pebble tray area.



Step 3 - Pull the cover all the way down and release the elastic skirt to completely cover the unit.
